Key

- National policy
- Interim COVID-19 policy

References

Click on the ovals in the table to access the referenced policy.

Notes

Burkina Faso: TPT provided for 6 months within RAVI6M DSD model

Burundi: DSD policy excludes patients on TPT. However, implementation plan contradicts the DSD policy by providing 3MMD for TPT with ART refills

Cameroon: TPT must be completed to qualify for DSD

Cote D'Ivoire: Interim COVID-19 policy: 3MMD TPT with ART refills

Eswatini: TPT refills with ART refills in all DSD models

Ghana: TPT prescribed monthly for first 2 months, thereafter 2 monthly with ART refill visit alignment if possible

Kenya: TPT must be completed to qualify for DSD

Malawi: TPT to be completed to qualify for 6MMD DSD. Does allow for 6MMD of TPT with ART refills to support TPT catch up

Mozambique: TPT integrated within facility-based 3MMD DSD model ("Fluxo Rapido")

Nigeria: Monthly TPT refills

South Africa: TPT not addressed in DSD policy. Draft (2019) revised TPT guidelines fully integrate TPT into DSD for HIV treatment models

Tanzania: ART patient on TPT considered unstable and ineligible for DSD. COVID-19 policy supports 3MMD for TPT with ART refills

Uganda: 3MMD TPT in facility and community DSD models

Zambia: TPT is separate from ART schedule and not specified in relation to DSD models
