

# DSD roadmap for AIDS 2024

Version 28 June 2024

*\*All times local time Munich, Germany (Central European Summer Time (CEST), GMT+2)*

## LIVE SESSIONS (satellites, symposia and oral abstract sessions)

### Saturday, 20 July 2024

- [Differentiated service delivery beyond HIV treatment: Learnings from and for NCDs and family planning towards integrated DSD](#), Pre-conference, Room Hall B0a / Channel 4, [Session 1](#): 15:00 – 16:30; [Session 2](#): 17:00 – 18:00; [Session 3](#): 18:30 – 19:30. Organized by IAS – the International AIDS Society.

### Sunday, 21 July 2024

- [Community-led monitoring in a changing world](#), Pre-conference, Room 14a / Channel 9, [Session 1](#): 08:00 – 09:00; [Session 2](#): 09:30 – 11:00; [Session 3](#): 11:30 – 12:30; [Session 4](#): 13:30 – 14:30; [Session 5](#): 15:00 – 16:30. Organized by IAS – the International AIDS Society.
- [The future of innovative models for HIV PrEP/PEP delivery](#), Pre-conference, Room 14c / Channel 10, [Session 1](#): 15:00 – 16:30; [Session 2](#): 17:00 – 18:00; [Session 3](#): 18:30 – 19:30. Organized by Maisha Meds and ClIFF.
- [#SaferNowPh for Filipino Youth: Animated series & other creative lenses for differentiated social marketing of HIV combination prevention focusing on young key population](#), Film Screening, Global Village Film screening room, 14:30-15:00.

### Monday, 22 July 2024

- [Models to simplify, normalize and diversify PrEP service delivery for scale and equitable access](#), Satellite, Room 14c / Channel 10, 07:30 – 09:00. Organized by the World Health Organization, the U.S. Center for Disease Control and Prevention, UNAIDS, PATH, EpiC Project and IAS – the International AIDS Society.
- [Expanding access to PrEP and PEP through community pharmacies: Lessons from Kenya and Nigeria](#), Satellite, Hall B0a/Channel 4, 9:30-11:00. Organized by Jhpiego.

- [Lessons learned in providing Pre-Exposure Prophylaxis \(PrEP\) for HIV for young people at scale](#), Satellite, Room 14a/Channel 9, 13:00 - 14:30. Organized by Wits RHI, University of the Witwatersrand; Federal University of Bahia, State University of Bahia; Unitaid.
- [Reaching the 4th "90" target: Accelerating the integration of HIV and noncommunicable disease responses to improve quality of life for people living with and affected by HIV](#), Satellite, Room 1/Channel 2, 15:00-16:30. Organized by the NCD Alliance, Global Network of People Living with HIV (GNP+), STOPAIDS, Frontline AIDS, PATH, World Health Organization, and IAS – the International AIDS Society.
- [Money, money, money: Building towards a sustainable end state for HIV prevention](#), Satellite, Room 14c / Channel 10, 15:00-16:30. Organized by PATH, AVAC, United States Agency for International Development, and the World Health Organization

### Tuesday, 23 July 2024

- [Differentiated strategies to support sustained engagement and re-engagement in HIV services in eastern and southern Africa](#), Satellite, Room 13a/Channel 6, 12:00 – 13:00. Organized by the World Health Organization and IAS – the International AIDS Society.
- [Empowering Youth in HIV Prevention and Treatment: The role of Meaningful Youth Engagement and Innovative, Behavioural, and Social Science-Driven Approaches](#), Satellite, Room 14b/Channel 3, 18:00 - 19:30. Organized by USAID and GHSD/PEPFAR.

### Wednesday, 24 July 2024

- [Communities taking charge: Overcoming prevention challenges through peer-led interventions](#), Oral Abstract Session, Hall B0a / Channel 4, 16:30 – 17:30.
  - [Let communities lead the HIV response: sharing experiences from key population civil society organisations in Uganda, 2022-2023.](#), Kulu, K et al.
- [People-centred and sustainable HIV prevention: Towards a new generation of prevention responses in a changing epidemic context](#), Satellite, Room 14b/Channel 3, 12:00-13:00. Organized by the Bill & Melinda Gates Foundation, Global Prevention Coalition, UNAIDS, UNFPA.
- [Opportunity for Differentiated Service Delivery to Improve PrEP Retention among MSM Aged 15-24 in Africa; Kenyan Case Qualitative Study](#), Global Village session, Global Village session room 1/Channel 11, 17:00 - 18:00.
- [Behavioural Science in Action: Bridging Gaps in Testing, Linkage, Retention, and Re-engagement in PEPFAR-supported HIV Prevention & Treatment Programs](#), Room 14b/Channel 3, 18:00-19:30. Organized by GHSD/PEPFAR.

### Thursday, 25 July 2024

- [Realizing nothing about us without us: Communities in the lead, ensuring accountability and quality](#), Oral Abstract session, Room 13b/Channel 7, 10:30-11:30.
  - [Differentiated service delivery of PrEP with key population- led organizations in Myanmar](#), Yamin Pyone, T et al

- [AI-mpact: Revolutionizing the HIV response in resource-limited settings](#), Satellite, Room 5/Channel 8, 12:00-13:00. Organized by the Gates Foundation and PEPFAR

### Friday, 26 July 2024

- [New strategies for optimizing person-centred care](#), Oral Abstract Session, Room 13a / Channel 6, 13:30 – 14:30.
  - [Aligning key population HIV prevention service preferences and coverage in Vietnam: findings from a national private sector engagement assessment.](#), Green, K et al.
  - [Client experiences of and preferences for HIV care delivery during the first six months on antiretroviral therapy in South Africa.](#), Mutanda, N et al.

## POSTER EXHIBITION

### DSD for testing

- [Reaching online networks when social networks disappear: enhancing HIV testing in Ukraine through targeted online campaigns and mail order HIV self-testing programs amidst the Ukrainian-Russian war.](#) Abstract 990.
- [Adapting HIV testing in wartime Ukraine: continuous evolution of differentiated service delivery models for key and priority populations.](#) Abstract 5239.
- [Distribution of SRH products and HIV self-tests to adolescent girls and young women enrolled in a girl-friendly loyalty club: midline results from the AmbassADDOrs for Health cluster randomized controlled trial.](#) Abstract 7677.
- [Increasing access of women who inject drugs \(WWIDs\) to harm reduction services through women-specific/led intervention: A successful differentiated service delivery model in Nepal.](#) Abstract 8535.
- [Integrated HIV testing program for female sex workers and their male clients: A community coverage approach to reach men who purchase sex beyond the "regular partners".](#) Abstract 8775.
- [Boosting community-based screening and referrals for HIV testing using digital applications: a first 95 game changer for young people?](#) Abstract 10008.

### DSD for PrEP/prevention

- [Peer-to-Peer key population-led organizational capacity building to scale differentiated HIV service delivery in Asia.](#) Abstract 1704.

- [Myanmar's experience on PWID centric PrEP access in harm reduction initiatives. Abstract 2020.](#)
- [The Anti-homosexuality Act 2023 dilemma: Innovative adaptation approaches to accelerate Pre-exposure Prophylaxis \(PrEP\) access and uptake among Lesbian, Gay, Bisexual, Trans, Queer \(LGBTQ+\) and other sexual minorities in Uganda. Abstract 5559.](#)
- [Choice matters! Youth-led research in Uganda on acceptability, preferences, and feasibility of HIV pre-exposure prophylaxis \(PrEP\) and family planning \(FP\) integrated models of care. Abstract 6726.](#)
- [Informing differentiated prevention services using HIV vulnerability profiles among adolescent girls and young women in Lesotho: A population based cross-sectional latent class analysis. Abstract 6926.](#)
- [In-person pick-up versus postal delivery: PrEP service and its association with adherence and retention among Chinese MSM. Abstract 6950.](#)
- [Key Population's Preferences in Initiating and Continuing PrEP in Community- or Facility-Based Settings within three Sub-Saharan African Countries. Abstract 7362.](#)
- [Interim results from an online pre-exposure prophylaxis \(PrEP\) pilot for men and women in Gauteng province, South Africa. Abstract 7509.](#)
- [Opportunity for differentiated service delivery to improve PrEP retention among MSM in Kenya. Abstract 7524.](#)
- [Community pharmacy initiated and management of oral pre-exposure prophylaxis \(PrEP\) among men and women at substantial risk HIV acquisition in South Africa: Interim results. Abstract 7992.](#)
- [USAID CHEKUP I partnership with public health sector for community-based delivery of PrEP to adolescent girls and young women in the DREAMS program: Opportunities and challenges. Abstract 8138.](#)
- [Strengthening National Monitoring and Evaluation Systems for Community HIV prevention in Zimbabwe. Abstract 9439.](#)
- [Structured group-based community model facilitates oral PrEP continuation among key and vulnerable populations in Dar es Salaam, Tanzania. Abstract 9511.](#)
- [Using male engagement champions to reach male sexual partners of female sex workers with HIV prevention interventions: Learnings from a demonstration project in 3 districts in Zimbabwe. Abstract 9537.](#)
- [Barriers and facilitators to daily oral PrEP uptake and adherence among youth in a clinical trial to evaluate community-based biosocial HIV prevention and sexual reproductive health in rural South Africa. Abstract 10109.](#)
- [Employing Differentiated Peer-Led Social Behavior Change Communication Channels to promote Condom Utilization for HIV Prevention. Abstract 10541.](#)
- [Caring for young carers: co-conceptualising, implementing and adapting psychosocial and clinical support for young PrEP peer navigators in semi-urban Western Cape, South Africa. Abstract 11016.](#)
- [Integrating peer-led mental health interventions into adolescent sexual and reproductive health \(SRH\) services: design perspectives from adolescent mental health service providers and researchers. Abstract 11553.](#)

## DSD for treatment

- [Time matters: leveraging longitudinal, person-centered data to understand interruptions and re-engagement in HIV treatment in Malawi from January 2020 to September 2023. Abstract Number 1265](#)
- [Exploring Differentiated HIV Service Delivery for Men Who Have Sex with Men in Africa: A Kenyan Qualitative Study. Abstract 1728.](#)
- [Facilitating Safe Disclosure of Key Population Identities to Optimize HIV Differentiated Service Delivery in Harare, Zimbabwe in Harare, 2022-2023. Abstract 2752.](#)
- [Favorable retention in care outcomes among persons receiving ART via a decentralized pharmacy dispensation differentiated service delivery model in Mozambique: A retrospective cohort study in Mozambique. Abstract 3268.](#)
- [Community ART Groups transforming HIV care in Kirwara Sub-County Hospital, Murang'a County, Kenya. Abstract 3706.](#)
- [Knowledge, Attitudes, Beliefs, and Practices towards HIV/AIDS among adolescents and young adults in Western Kenya. Baseline results in the context of a drone-based differentiated service delivery initiative. Abstract 3980.](#)
- [Prioritizing advanced HIV disease screening for treatment interruption in PLHIV: Early learnings from implementation of new guidelines in Zimbabwe. Abstract Number 4100.](#)
- [Retention outcomes among Malawian ART clients who are back to care following an interruption in treatment. Abstract Number 4166.](#)
- [Assessing the landscape of community-led HIV responses in the 7th Global Fund grant-making cycle. Abstract 4155.](#)
- [Strengthening recording and reporting of continuity of treatment for people living with HIV on antiretroviral therapy through physical review of paper client records: Manicaland and Midlands provinces of Zimbabwe, 2023. Abstract 4238.](#)
- [Removing socio-economic and structural barriers for the return of interrupting treatment clients. Abstract 5166.](#)
- [Assessing the impact of multi-month dispensing of antiretroviral therapy on viral load suppression among people living with HIV in Papua New Guinea. Abstract 5187.](#)
- [Paradox of Community - Led Monitoring: Community - led approaches to monitor community Engagement within HIV Differentiated Service Delivery \(DSD\) Programs across 20 African Countries. Abstract 6121.](#)
- [Factors associated with unsuppressed viral load among HIV clients on antiretroviral therapy in Eswatini. Abstract 6402.](#)
- [Health or income? How men living with HIV in Malawi experience and navigate decisions between income generation and ART refills. Abstract 6412.](#)
- ["Decongesting Health Facilities, Reducing Stigma, Transport Costs and Client Waiting Time": Stakeholder Experiences of Using Medical Drones to Deliver Anti-retroviral Therapy in Fisherfolk Communities of Kalangala Islands. Abstract 6483.](#)
- [Improving HIV treatment outcomes among alcoholic clients through Differentiated Service Delivery: A case study of 3 facilities in Uasin Gishu County, Kenya. Abstract 7090.](#)

- [Updated South African Differentiated Service Delivery guidance improves HIV services. Abstract 7397.](#)
- [Effect of differentiated models of service delivery for HIV treatment on healthcare worker time spent with ART clients: retrospective cohort and time and motion analysis. Abstract 7421.](#)
- [Enhancing re-engagement management in South Africa's HIV Treatment Program through a differentiated approach with algorithmic guidance. Abstract 7541.](#)
- [Long-term health outcomes of people living with HIV who were enrolled in decentralized distribution of antiretrovirals through private pharmacies in three provinces of Mozambique. Abstract 7759.](#)
- [Community antiretroviral treatment dispensing by health providers for people living with HIV who missed their drug pick-ups/clinical appointments: lessons learnt after over two years of implementation in four Mozambican provinces. Abstract 7767.](#)
- [Frequent visits and viral load timing delay differentiated service delivery enrolment and increase burden during the first year of HIV treatment: A policy review of 15 countries. Abstract 8500.](#)
- [Use of peer led community antiretroviral groups to improve retention in care among people living with HIV in West Pokot County, Kenya. Abstract 8394.](#)
- [A comparison of HEP-CAG and P-CAD models on viral load suppression, treatment adherence and retention in care in a community-based differentiated HIV treatment program in Ethiopia. Abstract 8615.](#)
- [Impact of the Service Delivery Framework Implementation on Children and Adolescents Living With HIV In Nigeria. Abstract 8647.](#)
- [Client Satisfaction with HIV Treatment Services in Bunyoro Region in Uganda: a cross-sectional Study. Abstract 9209.](#)
- [Service delivery preferences during the first year on ART: Lessons from a discrete choice experiment in South Africa and Zambia. Abstract 9402.](#)
- [Exploring the effect of differentiated service delivery on missed clinic visits for HIV treatment in South Africa: a cross sectional survey. Abstract 10268.](#)
- [The relative popularity of three distinct models of differentiated service delivery \(DSD\) offered to ART clients in Botswana. Abstract 10389.](#)
- [Lessons Learnt from Implementing the Hub and Spoke Differentiated Service Delivery Model for Antiretroviral Therapy in Cross River, Nigeria. Abstract 10604.](#)
- [Assessing Triggers for Dissatisfaction Among Persons Living with HIV Receiving Differentiated Antiretroviral Services in Southern Nigeria: A Cross-Sectional Study. Abstract 10629.](#)
- [The impact of changes to South Africa's viral load monitoring guidelines, on progress towards 95-95-95 targets. Abstract 10876.](#)
- [Preferences and Treatment Outcomes of Differentiated Service Delivery Models for HIV Care: A Retrospective Cohort Study of Women Living with HIV in Southern Nigeria. Abstract 11150.](#)
- [Towards 95-95-95: Mid-Term Review of Tunisia's HIV National Strategic Plan 2021-2025. Abstract 11590.](#)

- [Differentiated service delivery: rapid identification of eligible clients to be shifted in less intensive model through clinical mentorship in Rwanda. Abstract 11777.](#)

#### *Integration of other health conditions*

- [Retrospective analysis of cervical cancer screening rates among women living with HIV enrolled in differentiated service delivery models in Nigeria. Abstract 4071.](#)
- [Assessment of FP-HIV Integration under the ART Differentiated Service Delivery Models Oriented toward Self-Care in Selected Regions of Uganda: Implications for FP-HIV Integration. Abstract 5125.](#)
- [Characteristics of PLHIV who acquire TB disease after completing TB Preventive Therapy at a large facility in Kampala, Uganda. Abstract 5841.](#)
- [Non-communicable diseases service integration with a community-based HIV care and treatment activity in Ethiopia. Abstract 8231.](#)

#### *Pregnant and breastfeeding women*

- [Lessons learned from retesting of pregnant and breastfeeding women. Abstract 2591.](#)

#### *Children and adolescents*

- [Lessons learned during cohort monitoring of HIV-exposed infants: improving documentation of final outcome at 24 months of age. Abstract 2575.](#)
- [The influence of community-based interventions on multi-month dispensing of ART in children and adolescents living with HIV. Abstract 3363.](#)
- [The ART Kindergarten DSD Model for improved viral load suppression among children 0-5 years at Lighthouse Martin Preuss HIV clinic. Abstract 9202.](#)
- [Paediatric-Focused Client Management Approach Improves Biannual Viral Load Coverage among Children Living with HIV: Implementation Outcomes from Southern Nigeria. Abstract 10996.](#)

## E-POSTERS

### **DSD for treatment**

- ["I have to feel comfortable": Attitudes towards pharmacy-administered long-acting injectable antiretroviral therapy in a sample of people with HIV. Abstract 7384.](#)
- [Enhancing viral load monitoring among people on antiretroviral therapy using structured mentorship by cluster differentiated service delivery nurses: Lessons from Buhera District of Zimbabwe, 2023. Abstract 9039.](#)
- [Preferences for service delivery among adult clients in the first six months on antiretroviral therapy in Zambia. Abstract 10056.](#)
- [Increase in retention rate with a model combining tasks shifting to paramedical staff and differentiated follow-up of PLWH in Senegal. Abstract 10736.](#)

- [Paediatric-Focused Client Management Approach Improves Biannual Viral Load Coverage among Children Living with HIV: Implementation Outcomes from Southern Nigeria. Abstract 10996.](#)
- ["It is beyond anonymity": Reasons why PLHIV continue to opt for ART services from a distant location compared to place of residence, Andhra Pradesh. Abstract 5016.](#)
- [Association between multi-month ART dispensing and retention in care among people living with HIV in Tanzania. Abstract 7595.](#)
- [Lessons learnt from supporting the implementation of different types of External Pick up Points in a Central Chronic Medicines Dispensing and Distribution \(CCMDD\) program in a District in South Africa. Abstract 8856.](#)
- [Expanding HIV viral load testing accessibility: lessons from differentiated service delivery \(DSD\) in Indonesia. Abstract 12344.](#)
